**NALCO** Water  
An Ecolab Company

**BASF**  
We create chemistry

## *Our Capabilities*

### **Compressor Systems**

- Nalco Water Compressor Antifouulant improves reliability and lowers operational costs

### **Auxiliary Water Systems**

- Extend membrane life, increase cooling system and boiler reliability and optimize treatment costs with 3D TRASAR

### **H<sub>2</sub>S Removal**

- Efficiently reduce H<sub>2</sub>S levels to gas specifications with UltraFab modular systems

### **Iron & Asphaltene**

- Decrease maintenance time and cleaning costs with Clean N Cor™

### **Asset Management**

- Prevent extended periods of upset conditions, prolong run time and predict exchanger life with OMNI™

### **Proactive Solutions**

- Quantum Technical Services helps you find the answer when you need it most
